Full Stack Developer

EXPERIENCE

Indus Real Estate – Full Stack Developer (UAE)

March 2023 – Present

Led the development of a cutting-edge property management cloud application, streamlining operations for property owners and managers and successfully completed multiple web development projects related to the real estate.

Accomplishments:

- Developed a property management cloud app, revolutionizing property operations using Angular for the front-end and PHP for back-end logic.
- Designed user-friendly interface, implemented automated features, and ensured data security.
- Specialized in developing real estate websites using React, and Next.js for dynamic front-end experiences and PHP for server-side functionality.
- Leveraged SQL and NoSQL for database management.

NG International Co. LTD – IT Consultant (Remote)

Oct 2019 – Nov 2022

Implemented websites, and landing pages from concept through deployment.

Standardized all output with a new, responsive, mobile-first approach and strategy.

Worked with the cPanel of websites, installed domain and hosting for clients.

Wembley Spirit Limited – IT Technician (Part-Time) SRI LANKA

September 2019 – March 2023

Involved in troubleshooting the system, for instance rebooting.

Installation of software and its operation.

Maintained troubleshooting of hardware devices such as printers etc.
