Hiring Manager

Dear Sir/ Madam,

I positively believe I can face new challenges and learn new things. As well as, I'm capable of working with Bootstrap, jQuery, AJAX, HTML, PHP, Object-Oriented PHP, CSS, JavaScript, Laravel Framework, WordPress, Shopify, Java, C /C++, Adobe package, basics in networking, different types of IDE (Visual studio, NetBeans, Visual Code etc..) etc. As well as I'm good at designing posters, leaflets, company profiles, logos, visiting cards, resumes, UI/UX designs and editing photos, these have now all become my strength. Moreover, I have also developed and designed websites for different clients. As a result, I have an experience of four years. Keeping that in mind, one of my greatest achievements was designing a client's company profile and web sites that had a major positive impact on the company, it had managed to gain more buyers.

According to my current position, I'm majoring in Professional Graduate Diploma in IT, PGD-IT (BCS- UK) equal to a University Honours Degree program in UK. Furthermore, I'm eager to learn about new emerging technologies and believe that I would bring a term of success to the company.
To start off with my key strengths in the field are:
- Develop Web applications and web-based systems involving graphic designing. Having knowledge, and experience in different programming languages
- Handled the backend and frontend of web applications.
- Additional experience working with WordPress and different frameworks.

One of the key motivations that is available in this job role is that there is an opportunity where new skills and technologies can be learnt and applied in production. I'm looking forward to discussing with you further about my passion for all aspects of software development, graphic designing, web development and designing.

Thank you.

Yours Sincerely,
Buddhika Lahiru Atapattu

Buddhika Lahiru Atapattu
